Jaipur, Rajasthan

B.Tech – ECE · Arya College of Engineering & IT, Jaipur

2023 – 2027 · 4th Year

CGPA 7.0 / 10

PROFILE

Final-year **Electronics & Communication Engineering** student at Arya College of Engineering & IT with a strong self-driven interest in **Full-Stack Web Development** and **Python programming**. Combines a solid foundation in core ECE concepts with practical software development skills built through internships and personal projects. Seeking opportunities to grow as a **software engineer** at the intersection of technology and innovation.

EXPERIENCE

Web Development Intern

Jun 2026 · 45 Days

Code Soft · Remote Internship

- Built and deployed responsive web pages using HTML5, CSS3 and JavaScript.
- Developed dynamic front-end interfaces with React.js, improving UI interactivity.
- Integrated RESTful APIs with Node.js and connected to MongoDB databases.
- Managed source code and collaborated using Git and GitHub throughout the program.
- Completed multiple project deliverables within the structured 45-day curriculum.

PROJECTS

Personal Portfolio Website

github ↗

HTML5 · CSS3 · JavaScript · React.js

Responsive portfolio showcasing projects, skills and certifications. Includes smooth animations, dark/light mode toggle and mobile-first layout.

Python Automation Toolkit

github ↗

Python · Pandas · BeautifulSoup · Requests

Set of Python scripts for web scraping, data extraction and file automation with Pandas-based data cleaning and automated report generation.

Full-Stack E-Commerce App

github ↗

React.js · Node.js · Express · MongoDB

End-to-end shopping platform with JWT authentication, product management, cart system and RESTful API backend.

IoT Sensor Dashboard (ECE Project)

github ↗

Python · Flask · Arduino · JavaScript

SKILLS

LANGUAGES

JavaScript (ES6+)
Python
HTML5 & CSS3
C / C++

FRONTEND

React.js
Tailwind CSS
Bootstrap
Responsive Design

BACKEND & DATABASE

Node.js & Express
Flask (Python)
MongoDB
MySQL
REST APIs

TOOLS

Git & GitHub
VS Code
Postman
Figma

ECE DOMAIN

Arduino / IoT
Embedded C
MATLAB

EDUCATION

B.Tech – ECE

Arya College of
Engineering & IT, Jaipur
2023 – 2027 · CGPA 7.0 / 10

Relevant Coursework

Data Structures &
Algorithms, OOP, DBMS,
Computer Networks, Digital

Real-time dashboard connecting Arduino sensor hardware to a Python Flask backend with live chart visualisation on the browser.

Electronics, Embedded Systems

ACHIEVEMENTS

- ◆ **Code Soft Certified**
Web Dev Internship – completed with distinction (45 days)
- ◆ **Hackathon Participant**
College-level web development & coding competition
- ◆ **5+ Python Projects**
Built independently – automation, scraping & data tools
- ◆ **IoT + Web Integration**
Bridged ECE hardware with live web dashboards

INTERESTS

- Full-Stack Web Development
- Python & Automation
- Open Source Contribution
- IoT & Embedded Projects
- UI / UX Design
